Target birds for this photo tour where; Bald Ibis, Black Crowned Tchagra, Fulvous Babler, Thick Billed Lark, Marsh Owl, Audouins Gull and Cream-Coloured Courser. We had very good chances of most of them for great shots and, here are the results of such a close encounters. Regretfully after an intensive research , due to the cold winter and cold weather when the tour, we could not find any Cream-coloured Courser.
