### Week at BOLETAS + Ebro DELTA May 15<sup>th</sup>-24<sup>th</sup> 2008

#### **Tour group**

Tom & Joyce Prince - USA  
Edward & Susan Handy - USA  
Susan Littlefield - USA  
Shaun & Kevin Woodcock - UK

#### **Tour leader**

Alberto Bueno

***We saw many species on this tour, some special and some 'most wanted' - 191 to be precise, with another four 'heard' only.***

***Amongst others, we had outstanding views of Squacco Heron, Lammergeier, Great Bustard, Mediterranean Gull, White-winged Black Tern, Black Woodpecker, Dupont's Lark, Olivaceous Warbler, Ortolan Bunting, Collared Pratincole, and Eurasian Eagle Owl (plus Crested Tit and Rock Sparrow, of course).***

***The weather was excellent and we stayed in the best accommodations, especially at Boletas (with Esther's cooking).***

***Thanks for all your enthusiasm, good companionship and intensive interest. We covered many miles in the ten action packed days of the tour and we hopefully showed to you a good cross-section of a Spain, very different from that in the holiday brochures.***

***Yours, ever  
Alberto Bueno***
